

ACCENT TATTOO & PIERCING STUDIO INC.

Congratulations on your new tattoo!

Follow the easy steps below and your tattoo will love you for life.

- Wash your hands before touching your tattoo.
- Remove bandage after 2 - 2 1/2 hours. Your artist will designate time on this. Do not re-bandage.
- Wash your tattoo with warm water and soap. Don't use any wash cloths, sponges, etc.
- Rinse well and gently pat dry with a clean towel.
- Leave your tattoo alone the first night after washing.
- You may want to wear a clean white t-shirt to bed for a tattoo on the torso. If the shirt sticks in the morning, you may want to wet it thoroughly to release it.
- Wash your tattoo again in the morning.
- After washing, apply a LIGHT coating of fragrance-free moisturizing lotion (Lubriderm, Aveeno, Eucerin, Cetaphil, etc.).
- Don't pick at or scratch your tattoo! Be careful of pets near your tattoo.
- No swimming, baths, or soaking in hot tubs for at least the first two weeks after getting your tattoo. Showers are fine.
- Apply a thin layer of lotion 2-3 times per day when the tattoo feels dry.
- Healing time is usually 3-4 weeks.
- After your tattoo is healed, use SPF 30 or greater sun block when out in the sun. This will help keep your tattoo from fading over time.

Your artist will be glad to do a post-procedural inspection 30 days from today's date to take a photo for our portfolio.
